

## Kentuckiana Spay/Neuter Clinics

- ✓ Appointments are required to help the program go smoothly. Appointments are limited to a certain number of animals at a time. Clinics run on a weekly, bi-weekly, and monthly basis depending on county. 100% financing *may* be available in your area for low-income families or if you have a Pit Bull.
- ✓ Prices/specials are current but could change at any time. Also, some program funds expire as money runs out or as spaces fill up. May be additional charges for animals with additional medical needs.
- ✓ Must have proof of rabies or attain rabies vaccine at time of surgery (it's the law!)
